

Some Tips for Making Your 'HOW TO' Guide...

Stay within this square
to make sure your content is seen
when printed/bound.

If you want to use the template without the lines,
Just make sure your text/images don't get closer than 1/4" to the edge.

Anything to the left of this logo/line
might get squished into the spine of the
"book" once it's bound, so keep it to the right.

Make it fun!
Feel free to add graphics, hand draw yours,
add color, add images anything goes!

Just keep in mind printing in color
is more expensive than B&W so it is NOT required.

FONT SIZE MATTERS...

LOTS of PEOPLE Can't read SIZE 8 and Smaller

11 or 12 is a standard, but whatever you gotta do to fit it in is ok!

HAVE FUN!
