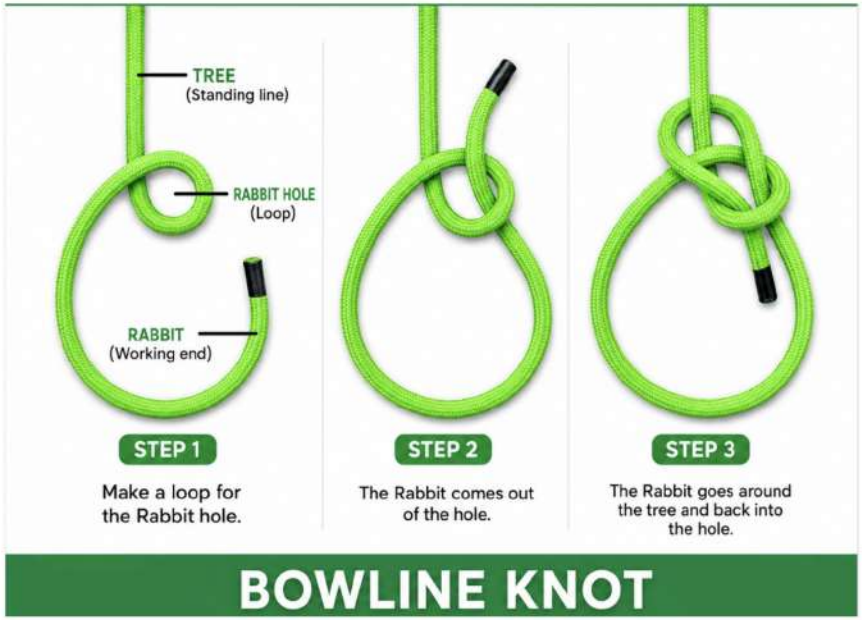
Tie Some KNOTS



BOWLINE KNOT

a fixed loop at the end of a rope

it won't slip

easy to untie... always

one of the most useful knots!

good for lashing stuff to your vehicle

good for guylines for tarps

often used with a "hitch" to complete lashing something down

pronounced: "bough- lin"

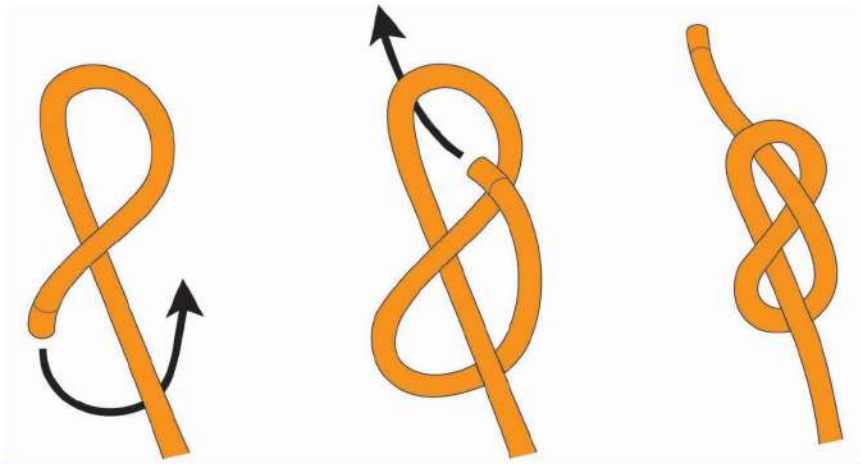


FIGURE 8 KNOT

a stopper knot

prevents the end of a rope from slipping through a hole

looks like the number 8

easier to untie after its under a load than basic overhand knot

great for your hoodie string ends

great for your PJ's string ends

great for a basic swing - drill 2 holes in ends of board you sit on
